### SESSION 2018-19

### WORKSHEET -01

Name : \_\_\_\_\_

Class: 4<sup>th</sup> \_\_\_\_\_

Subject: English

#### 1. Read the passage carefully and answer the following questions:

The great advantage of early rising is that one can start one's work long before others. The early riser can do a large amount of hard work before others get out of their bed. In the early morning, the mind is fresh and no sound or noises disturb our attention. The work done at that time is generally well done. One also finds time to take some exercise in the fresh morning air. Exercise supplies him with a good deal of energy that enables him to work hard until the evening. By beginning so early, he knows that he has plenty of time to do his work thoroughly. He has not to hurry over any part of his work. He gets to sleep long before midnight. At that time sleep is most refreshing. After a sound night's rest, he rises early next morning in good health for the labour of a new day.

- (a) What advantages does an early riser have over others?
- (b) Why should one take exercise in the morning and begin one's work so early?
