

CLASS – L.KG

Birds are amongst the best creation of God and feeding these small creatures is considered a noble act. Water and food are vital for all the life forms on the earth and providing the same to the birds in hot summer via bird feeder helps them to thrive and survive in a better way.

To inculcate among the children the importance of caring for others especially animals without any selfish reason.

Encourage your ward to keep water for birds on terrace or balcony or in your lawn.
